

DONNING SEQUENCE

This is the ORDER to PUT ON PPE

1. BOOTS

- Then wash hands
-

2. DISPOSABLE GOWN

- Put over boots
-

3. (FFP2/3) RESPIRATOR MASK *NOT SURGICAL MASK*

- Remove glasses before fitting mask
 - Put one strap along the neck and the other on the crown of the head.
 - Press down along the nasal strip and along the top of the mask to get a good seal
 - **Leak check: Check there are NO leaks by taking a fast breath in / out and feeling for leaks around the mask.**
 - If there are any leaks fix the straps
 - If still leaking **do not proceed with ghusl**
-

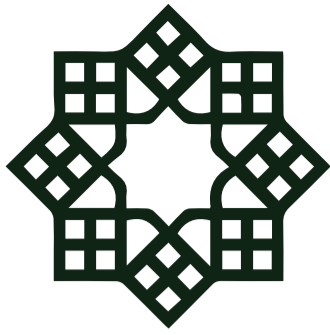

4. EYE PROTECTION - SHIELD (OR GOGGLES)

- Sanitise glasses before putting them back on
 - Sanitise hands for next step
-

5. GLOVES

- Put on 3 pairs of gloves

DOFFING SEQUENCE

This is the ORDER to REMOVE PPE

NOTE: Do not move in to the 'clean' area until all PPE has been removed

1. GLOVES

- Pinch the outside and remove, then slide bare fingers underneath the other
-

2. GOWN

- Remove gown from the back.
 - Or remove together with the gloves by pulling the front of the gown and breaking the straps
 - If you are wearing an apron on top of the gown - remove the apron only
-

3. GET READY FOR CLEANING

- Wash hands properly
 - Put on a standard apron and gloves for cleaning
 - **DO NOT** remove goggles or mask until cleaning has been completed
 - Once cleaning has been completed - repeat steps 1 and 2 and wash/sanitise hands
-

4. EYE PROTECTION - SHIELD/GOGGLES

- Once the Ghush area has been cleaned - slide them off from the back of the head.
-

5. MASK

Once the ghush area has been cleaned and the deceased has left, then remove the mask from the ear straps, remember the front of the mask will be contaminated

6. SECURE ALL WASTE IN CLINICAL WASTE BAGS

7. WASH HANDS THOROUGHLY
